

BEHAVIOR SUPPORT

PROFESSIONAL DEVELOPMENT OPPORTUNITIES & SERVICES

Cultivate a productive, positive, and safe teaching and learning environment with the support and guidance of our experts.

SERVICES

Behavior Coaching

TIE's behavior specialists provide personalized coaching, observations, and small group or 1-on-1 training, on-site, virtually, or a blend of both to address behaviors occurring in your school or district. Participants gain expertise in understanding behaviors, including antecedents and consequences, and how to implement interventions that work!

Behavior Intervention Specialists Training & Coaching

TIE will train your staff to independently analyze behaviors, develop behavior interventions, and determine their effectiveness as Behavior Intervention Specialists. Our qualified trainers provide coaching, support, and informal training with virtual and on-site meetings.

Behavior Support & Implementation PLC

With the support of TIE, you can build professional learning communities (PLC) in your school that improve academic and social behavior outcomes for all students. The PLC receives monthly training and behavior problem-solving from our experts. Educators in the PLC will gain skills to address behaviors and develop interventions in the general classroom.

PARTNER WITH US FOR A TAILORED LEARNING EXPERIENCE

Behavior-Specific PD • Classroom Management PD • Monthly Virtual Training and Q&As
Behavior-Focused Micro-Teaching • Functional Behavior Assessments (FBA)
Behavior-Focused Data Retreats
