

PARAPROFESSIONAL TOOLKIT

MODULE-BASED LEARNING

With the increased need for paraprofessionals working in Special Education comes the need for focused training and professional development specifically designed for them. Our Paraprofessional Toolkit has 18 “tools” to provide paraprofessionals with the basic skills and knowledge required to carry out their job with confidence. Each tool is an online, self-paced module that takes about one hour to complete. Tools can also be combined for an in-person training experience

Choose from any of
our tools to customize
your learning journey

		1 Intro to SPED	2 Roles & Responsibilities	3 Collaborating with Teachers
